Persons who are not currently a student, member of staff, contractor or registered user of the Institution, but who are permitted to access the Institution's information services from computer terminals or otherwise within the physical premises of the Institution ["Walk-In Users"] are also deemed to be Authorised Users, only for the time they are within the physical premises of the Institution.

For Archive/PAL Product and Moving Wall: Authorised User means as well any individual subject to the requirement of permanent residence in Germany that has completed a suitable registration procedure as long as such registration remains in effect.

b. Commercial Use: the use of the Licensed Material for the purpose of monetary reward (whether by or for the Institution or an Authorised User) by means of sale, resale, loan, transfer, hire or other form of exploitation of the Licensed Material. For the avoidance of doubt, the use by the Institution or Authorised Users of the Licensed Material in the course of research funded by a commercial organisation is not deemed to constitute Commercial Use. Recovery of costs is not being deemed Commercial Use.

The use of Metadata by search engines for the limited purpose of discovery of customer’s service expressly not to be made available for any 3rd party's other uses does not constitute Commercial Use as long as that Metadata is not sold, lent, distributed or otherwise re-licensed via that search engine or the access to that Metadata on that search machine is exclusively being charged for.

c. Educational Purposes: The use for the purpose of education, teaching, distance learning, private study and/or research.

d. Institutions: higher education institutions financed either by public or private funding; national, regional and state libraries; academic specialist libraries mainly financed by public funding; research institutions mainly financed by public funding; governmental institutions; including any of such above mentioned types of German institutions abroad [...]..

e. Intellectual Property Rights: Patents, trademarks, trade names, design rights, copyright (including rights in computer software and moral rights), database rights, rights in know-how and other intellectual property rights, in each case whether registered or unregistered and including applications for the grant of any of the foregoing and all rights or forms of protection having equivalent or similar effect to any of the foregoing which may subsist anywhere in the world.

As provided herein, Licensee and the Institutions use of the Licensed Material [...] shall be limited to the non-commercial use of the Licensee and the Institutions and the Licensee and the Institutions Authorized Users. b. Provide Authorised Users with an integrated access and index to the Licensed Material and all other similar material licensed from other publishers. The Licensed Material or parts thereof may be compiled, indexed and catalogued (including, without limitation, the header data and abstracts) by the Licensee and the Institutions. Anything thereby created or compiled may be integrated into the internal products and services internal to the Institutions. Metadata may be integrated into any other library and information system (including but not limited to search engines of commercial corporations provided that the Metadata is not sold, lent, re-licensed, or distributed in any manner that violates the terms and conditions of the licence), provided it is allowed to be used solely for the discovery within the pool of other metadata of the Institutions products. The Licensed Material can be integrated without restriction (including, but not limited to) digital course reserve collections, in virtual research environments in which authorised institutions participate as well as in the virtual specialised libraries operated by authorised institutions. g. In each case a-f, above, the use shall be restricted to a reasonable portion of the licensed materials which, under the circumstances is necessary to perform the authorized activity without creating a substitute for a material portion of the Licensed Materials.

2. This Licence shall be deemed to complement and extend the rights of Licensee, the Institutions and Authorised Users under the German Copyright Law and other applicable legislation in Germany and nothing in this Licence Agreement shall constitute a waiver of any statutory rights held by the Institutions and Authorised Users from time to time under these Legislations or any amending legislation.
