It is understood that the Guidelines for the Purchase of Publications in the DFG-funded System of Specialized Information Services for Research (DFG form 12.101-12/12) are part of the basis of this agreement, see internet address in Schedule 1. In the event of any conflict between such terms and this Licence Agreement, the provisions of this Licence Agreement shall prevail.

In case of subsequent amendments to this agreement it is understood that each will be comprised and in line with the current version of the Guidelines for the Purchase of Publications in the DFG-funded System of Specialized Information Services for Research (DFG form 12.101-12/ 12).

In this License, the following terms shall have the following meanings:

A complete version of the work and all supplemental materials, including a copy of the permission as stated above, in an appropriate standard electronic format is deposited (and thus published) in at least one online repository using suitable technical standards (such as the Open Archive definitions) that is supposed and maintained by an academic institution, scholarly society, government agency, or other well established organization that seeks to enable open access, unrestricted distribution, interoperability, and long-term archiving (s. § 2.3)
